

THANK YOU DFY IN SCV TEACHERS

Thank you to the teachers of William S. Hart Union School District for supporting Drug Free Youth in Santa Clarita Valley (DFY in SCV) since 2012. Your support in educating and engaging with our youth to stay drug free has given students the opportunity to have real conversations, community service experience and social activities to help them make good choices and stay on the right track.

The DFY in SCV junior high and high school clubs are led by students for students! The voluntary drug prevention and education program educates and empowers students to make good

choices leading toward positive and healthy behaviors. The curriculum continues to teach communication and lifelong skills to combat negative peer pressure and easy-to-remember strategies to say no.
